## Happy New Year!

We would like to welcome you all back from the Holiday break and hope you were surrounded by loved ones and happiness. Here in the Sunbeam Class, as well as H1H as a whole, we are excited for the new year and have lots of fun things planned. We hope you'll be excited, too. First off, we are planning to redecorate and enhance our classroom with lots of new art projects and activities. So, if you happen to come across some "crafty items" (like ribbons, buttons, metal containers, empty water bottles big beads, scrap fabric or even unwanted scrapbook papers, etc.) and are able to donate some of these items, we would greatly appreciate your generosity. We hope you'll enjoy our little changes.

## Friends at Work and Play...

There are wonderful things happening in the Sunbeam Class, namely the bonds the children are developing with one another. They play together and work together very well. We definitely have a strong sense of community in our classroom. All of them are aware of one another and know each other by name. They mostly include one another in their activities. Solomon is always calling a friend to "let's

go!" and off they go on to their next adventure. Every one of them is ready to help each other with what ever. If Layla needs a chair or drops something, one of them is right there to assist. They really do enjoy each other's company and friendship.

## A Little Help From Mom & Dad~

We'd like to enhance our folders of your child with some bits of fun information that you could share with us... Like, if there are pets in your home and their names (a photo would be nice if possible), your child's favorite toy or activity he/she likes to play or do with you, if you've gone on family trips, where have you gone, etc. There will be a sheet printed out with possible ideas for you next week. Watch for it on your child's clipboard.

Have a great weekend!
